

Tools and Resources to Educate Children and Teens about Money

Knowing how to effectively spend and save money and manage credit can help children and youth become successful adults. The links listed below are proven financial education tools.

[Money as You Grow](#)

Reading guides for over two dozen children's books with money-related themes. The guides feature suggested discussion questions and activities that caregivers can do with children as they read the themes and teach kids about money. For grades K4-3rd.

[Money Matters](#)

UW-Madison Extension's popular online self-study course for adults also works well for providing high school students with reliable information on credit reports, spending plans, and insurance. For grades 9-12.

[The CFPB's guide to financial literacy activities](#)

The Consumer Financial Protection Bureau has put together a collection of activities that can help educators teach and nurture the building blocks of financial capability. Each activity comes with a teacher guide and supporting student material. For grades K4-12.

[Next Gen Personal Finance](#)

Teachers and community practitioners can access lessons for elementary, middle, and high school on checking, saving, types of credit, managing credit, paying for college, budgeting, investing, financial pitfalls, careers, taxes, and insurance. For grades K4-12.

[FDIC's Money Smart for Young People](#)

The Federal Deposit Insurance Corporation has created versions of its popular Money Smart curriculum for grades pre-K-2, 3-5, 6-8, and 9-12. This curriculum is also available in Spanish.

[Jump\\$Start Clearinghouse](#)

The Jump\$Start Coalition reviews all financial literacy resources before they are posted on this site in order to make sure that they meet their seven criteria for listing, including being accurate, up-to-date, unbiased, respectful, and non-discriminatory. For grades K4-12.

[University of Idaho Extension Northwest Youth Financial Education](#)

University of Idaho Extension has created a series of interactive games for children and youth of all ages that provide fun ways to learn about money and finances. From games like Pirate Loot where students learn about saving and spending as they pretend to be a pirate crew on the high seas to Night of the Living Debt where participants learn how to manage credit card debt while outrunning financial zombies, this collection of fun games also features tools to teach participants about student loan debt, financial apps, credit scores, taxes, investing, and more.

[Small Savings Build Big Dreams](#)

Small Savings Build Big Dreams is a campaign led by University of Wisconsin-Madison Extension county educators to promote the benefits of saving for college, answer common questions about saving for higher education, and provide information about how you can get started. For parents and grades 7-12.
