

# Youth Forward Wisconsin

*Wisconsin communities, parents, and youth know that the future is brightest when the most opportunities are open to them.*

Wisconsin communities need young people with the education to **succeed in the jobs of tomorrow**, so how can we build our community's **chance to thrive**?

Research shows that youth with a **small amount of money** saved for higher education, coupled community support, are more likely to enroll and graduate from **post-secondary programs** than youth without these savings, making them ready for the opportunities of the future!

## Key points

- **Universal**: Together, we work toward 100% of youth in your community having at least a small amount of money saved for their future education
- **Community Supported**: On a regional or county level, a Community Advisory Board supervises the program, seeks funding, and provides community input.
- **Extension Outreach**: Local Extension Educators help with outreach & education in your community and keep it connected to the statewide effort.

Supported by UW-Madison Division of Extension and local Extension Educators, **Youth Forward Wisconsin** gives communities the tools to understand and implement a universal child savings account program that fits their needs, and helps their youth reach their full potential.

For more information, contact your local Extension office.

*Empowering Wisconsin communities to support the future education of their youth!*

The University of Wisconsin-Madison Division of Extension provides affirmative action and equal opportunity in education, programming and employment for all qualified persons regardless of race, color, gender, creed, disability, religion, national origin, ancestry, age, sexual orientation, pregnancy, marital or parental, arrest or conviction record or veteran status.
